The 2004 US election provided French citizens and their media with a springboard for re-conceiving 'self' and 'other'. By examining how the French media - newspapers, television, the internet and scholarly research - represented the election from a critical geopolitical perspective, this book provides the first major in-depth study of views of

Example text Their differences in power, culture, and
experience inspire different social trajectories, so that each
national culture (judging by dominant discourses) sees
itself moving into the future while the other lags behind or
moves backwards.
