### **Elsevier**

Zeolite scientists, whether they are working in synthesis, catalysis, characterization or application development, use the Atlas of Zeolite Framework Types as a reference. It describes the main features of all of the confirmed zeolite framework structures, and gives references to the relevant primary structural literature.

### **Database of Zeolite Structures - IZA Structure Commission**

This database provides structural information on all of the Zeolite Framework Types that have been approved by the Structure Commission of the International Zeolite
