[Migration testing on Food Contact Materials - Intertek](#)

Migration is the transfer of chemical substances from food
contact materials into food. For plastic materials two types
of migration limits have been established in Commission
Regulation (EU) No. 10/2011 .

of chemical migration from packaging into food (CMPF)
and the adequacy of the current regulatory framework to
manage any risks resulting from that migration. This
Proposal aims to determine whether measures are required
to manage food safety risks arising from CMPF in
Australia and New Zealand. The Proposal encompasses

CMPP from virgin and recycled materials. FSANZ has assessed the risk of
