[The Great Pyramids of Giza > ENGINEERING.com](#)

The designations of the pyramids Khufu, Khafre, and Menkaure correspond to the kings for whom they were built. The northernmost and oldest pyramid of the group was built for Khufu (Greek: Cheops), the second king of the 4th dynasty.

[Engineering the Pyramids by Dick Parry - Goodreads](#)

In *Engineering the Pyramids*, author Dick Parry - a civil engineer - assesses the design of the pyramids and the likely methods of quarrying, transporting and raising the stones. Basing his ideas on both the archaeological record and the basic principles of engineering - as well as the results from a

[Engineering the Pyramids Special Project | Drexel Engineering](#)

Professor Michel Barsoum and colleagues have found scientific evidence that parts of the Great Pyramids of Giza were built using an early form of concrete, debunking an age-old myth that they were built using only cut limestone blocks.
