[Heterogeneous Catalysis and Fine Chemicals II | Request PDF](#)

Nowadays, heterogeneous catalysis is an attractive and superior process in many areas of synthetic organic chemistry due to its unique properties such as the ease of separation and reusability.

[Heterogeneous Catalysis and Fine Chemicals IV, Volume 108...](#)

After three meetings in Poitiers, France, the 4th International Symposium on Heterogeneous Catalysis and Fine Chemicals was held under the auspices of the New Swiss Chemical Society in Basel, Switzerland.

[Heterogeneous Catalysis And Fine Chemicals II](#)

The first International Symposium on Heterogeneous Catalysis and Fine Chemicals is to be seen in this perspective. Organised by the Laboratory of Catalysis in Organic Chemistry of the University of Poitiers within the framework of the International Symposia of the 'Centre National de la Recherche Scientifique' (CNRS), the symposium provided an opportunity for contact between academic
