[International law - Wikipedia](#)

International law is the set of rules generally regarded and accepted in relations between nations. It serves as a framework for the practice of stable and organized international relations. International law differs from state-based legal systems in that it is primarily applicable to countries rather than to individual citizens.

[Uphold International Law | United Nations](#)

The UN Charter, in its Preamble, set an objective: "to establish conditions under which justice and respect for the obligations arising from treaties and other sources of international law can be

[International law legal definition of international law](#)

The body of law that governs the legal relations between or among states or nations. To qualify as a subject under the traditional definition of international law, a state had to be sovereign: It needed a territory, a population, a government, and the ability to engage in diplomatic or foreign

[What is International Law? \(with pictures\) - wjageek.com](#)

International law is a body of legal rules, regulations and accepted practices by which countries, organizations and people throughout the world interact with each other and with citizens of different countries.

[OHCHR | International Law](#)

International Human Rights Law . The international human rights movement was strengthened when the United Nations General Assembly adopted of the Universal Declaration of Human Rights (UDHR) on 10 December 1948.

[International Law | Centre for International Governance ...](#)

The International Law Research Program (ILRP) at CIGI is an integrated multidisciplinary research and teaching program that provides leading academics, government and private sector legal experts, as well as students from Canada and abroad with the opportunity to contribute to advancements in international law.

[What Is International Law | Globalization101](#)

Basically defined, international law is simply the set of rules that countries follow in dealing with each other.

There are three distinct legal processes that can be identified in International Law that include Public International Law (The relationship between sovereign states and international entities such as International Criminal Court).
