### [64 Introductory Chemistry: General, Organic and Biological](#)

Introductory Chemistry: General, Organic and Biological by S L Seager and M IV, Slabaugh. pp 684. Scott, Foresman and Co. Glenview, Illinois, USA. 1979. Distributed in UK by Eurospan Ltd. London. 10.50 ISBN 0-673-15026-7 This text is aimed at students on courses in nursing, allied health and life sciences in the USA. The Preface states that 'to them biochemistry is the most important part of

### [General, organic and biological chemistry \(second edition ...](#)

very well the primary aim of the authors in teaching general and organic chemistry, ie the preparation of students to understand biochemistry. The molecular logic of living systems (as the late Albert Lehninger called it) springs very naturally from modern chemistry since so much of this in recent decades has been focused on biological systems and especially on human health-related matters.
