[What has public health got to do with midwifery? Midwives ...](#)

However, midwifery's role in public health is rarely acknowledged by the "system" or by midwives themselves. In fact most midwives may find it difficult reconciling public health with the care they provide. AIM AND METHODS: This paper aims to raise midwives' public health consciousness and explores the ways in which they can, regardless of the maternity service context in which they work.

... This paper will provide a critical narrative review of public health interventions in pregnancy and the role of the midwife in public health. The historical and political context of public health and midwifery will be examined to give a background to the current midwifery public health agenda.

[**New resources available for Stepping up to Public Health | RCM**](#)

The project, MIDWIFERY 2020 outlined several key messages around the public health role of the midwife. Their unique contribution to public health is that they work with women throughout pregnancy, birth and into the first weeks of family life , hence, they have a vital role to play in improving health and social wellbeing for all women
