making, expertise, training methods and system design.

The material may be used in two ways: theoretically, to
advance understanding of the field of naturalistic

[Call for Papers International Naturalistic Decision...](#)

Naturalistic decision making (NDM) is concerned with the
study of how people make decisions in complex real-world
settings that can include dynamic, uncertain and
continually changing conditions, and can require real-time
decisions in urgent situations with significant
consequences for mistakes.
