The Nursing Interventions Classification (NIC) system is designed to categorize and describe every possible intervention a nurse might perform. This system is constantly used, evaluated and updated. Nursing Interventions Classification (NIC) 6 th Edition describes a number of uses for the system. They include:

[Nursing Interventions Classification - College of Nursing](#)

The Nursing Interventions Classification (NIC) is a comprehensive, research-based, standardized classification of interventions that nurses perform. It is useful for clinical documentation, communication of care across settings, integration of data across systems and settings, effectiveness research, productivity measurement, competency evaluation, reimbursement, and curricular design. The Classification includes the interventions that nurses do on behalf of patients, both independent and

student visits to the nurse, interventions by the school nurse and outcomes from those interventions should be core components. Because the Nursing Intervention Classification System (NIC) had the most comprehensive list of nursing actions, it was selected for use in Delaware. The Department of Education (DOE) then obtained permission to use the copyrighted terminology of NIC and NOC (Nursing
