### [FindingRocks.com - California Locations](#)

This website is dedicated to the amateur rockhound who is interested in finding rock specimens for their collection. It includes information such as collecting locations that I've visited or that I've researched, and also information from other rockhounds. This page allows for the entry of Rock collecting locations that have been found by users.

### [Rockhounding around Las Vegas NV -](#)

### [Lapidaryforum.net](#)

Also in Southern California and down near Kingman. Right outside of Vegas I mainly go for red selenite, a light golden selenite, actinolite for specimens, marine coprolite, fossil sponges, crinoids, there is some nice green and blue-green jasper deposits, an interesting frothy looking obsidian, low grade fire agate and if you are in to limestone tons of that.

Read "Rockhounding California A Guide to the State's Best Rockhounding Sites" by Gail A. Butler with Rakuten Kobo. A complete guide and source-book brimming with advice on collecting and preparing gems and minerals .

### [Rockhounding 101 - The Basics of Field Collecting Research](#)

It makes local officials either look forward to increased tourism, or look for ways to restrict access, as if rockhounding was a hobby that allows one to retire early (on public gains!), rather than typically be retired to enjoy! Mineral collecting is a truly patriotic hobby! Knowing and understanding minerals and the deposits has always been a matter of national security, public knowledge and

### [Rockhounding in the California Desert - Review of Hauser ...](#)

Rockhounding in the California Desert This is an off-road trip to collect colorful agate and crystal-filled nodules-- while most of it is driven on rough desert tracks, I encountered a few places where gully erosion and deep sand/gravel were too much for any vehicle without high clearance and 4-wheel drive.
